Product Data Sheet

Product Name: **HybriCare** Hybridoma Rescue Media

Catalogue No.: 1099

Description: **HybriCare** hybridoma rescue media is a proprietary blend of growth factors and antibiotics, when added to your current media at 10% volume by volume will help rescue your clone. Hybridoma clones tend to loose viability or productivity spontaneously and randomly for various reasons. Using our extensive cell culture experience we have identified some of the common causes of such loss of activity and viability. Our specially formulated resume media contains many cytokines, growth factors and hormones. It also contains a panel of 5 antibiotics to contain growth of most bacteria, mycoplasmales, and mycotics.

Format: 100mL ready to use solution. Use at 10% in your standard cell culture media.

Storage: Store at -20 until use. Add to regular media at 10% and use within a month.

Stability: 12 months at -20 C temperature.

Shipping: Products will be shipped on blue ice.

For Research Use Only. Not for Diagnostic or Therapeutic Work.

ARC will not be held responsible for patent infringement or other violation that may occur with the use of our product.
