

Antibody Research Corporation Welcomes New Summer Intern from Washington University in St Louis

For immediate release

June 6, 2011 St Charles, Missouri

Antibody Research Corporation (www.antibodyresearch.com) today announced that it is hosting a Washington University Student for summer internship. This program will provide students with necessary real world experience needed for a career in Biotechnology.

The intern, Shanriell Lambert, hails from Illinois. She is currently a junior at Washington University in the Biomedical Engineering program. Dr. Das Prayaga, the President and CEO of Antibody Research Corporation said “we are working with the Skandalaris Center for Entrepreneurial Studies at Washington University in St Louis, who is organizing this program”.

Antibody Research Corporation is a five year old Biotechnology company located at the Economic Development Center (EDC) of St Charles County (www.edcsc.com), located at 5988 Mid Rivers Mall Drive in St Charles, Missouri. More information about Antibody Research Corporation is available from its website (www.AntibodyResearch.com).
